

## COMMUNICATION

HEDNO would like to inform the public that today, Saturday July 2nd 2016 and at 19:35 the power supply to the island of Sikinos was fully restored; power supply to Folegandros was restored at 20:10.

Both islands were again supplied with power following transfer, placement and connection of the necessary generating sets by PCC (DEI S.A.)

The power cut to both islands had occurred on Friday, July 1st 2016 as a result of a fault in the Ios - Sikinos submarine interconnection line.

Once again, HEDNO would like to express its sympathy towards its consumers for the inconvenience caused as a result of this fault.

**Athens, July 2nd 2016**
