

**HEDNO: Yet another incident of criminal assault
against HEDNO's employees**

Following the recent incident of criminal assault against its employees, HEDNO would like to reiterate that there will be zero tolerance for this type of violence.

This uncalled for criminal assault took place on Monday, September 5 2016, around noon, in the district of Ano Liossia. A consumer attacked the Company's crew by battering and shooting at them. The crew had arrived at the consumer's business (a tavern) to dismantle the cable of the supply due to unpaid bills and following consumer's repeated attempts to tamper with the supply.

After attacking and battering one of HEDNO's employees, the consumer went as far as to shoot at the company's official car and was not even stopped by the fact that at the time of the incident two more crew members were inside the vehicle.

Assisted by the company's legal division, HEDNO's competent departments took immediate action and the Company's representatives and the employees involved in the incident went to the Ano Liossia Police Department to lodge a complaint against the perpetrator. The Police initiated the in flagrante procedure but the perpetrator had already fled the scene.

According to the information received by the police authorities, if the perpetrator has not been arrested within the in flagrante procedure time frame, the papers will be dispatched to the Athens Magistrate Court Prosecutor's Office for further action.

It should be noted that the Company's crew escorted by special police force members arrived again at the above mentioned business and removed the supply cable from the respective pole, while being verbally attacked by a number of individuals present at the scene.

For HEDNO's Management, protection and safety of its employees are a top priority therefore HEDNO takes all necessary measures to prevent such incidents of violence against the Company's crews.
