

PRESS RELEASE

HEDNO: Defense of staff legal rights is HEDNO's overarching top priority

For HEDNO, defense of its staff legal rights is a top priority; therefore, HEDNO has instinctively taken immediate action since the very first moment to support its technicians who have been cruelly assaulted by a consumer on Thursday, August 18th 2016, on the island of Zakynthos, indeed an unheard of incident.

HEDNO's Management shows zero tolerance against any incident of harassment, bullying, let alone violence against its staff and, therefore, HEDNO is going to react firmly within the law by consistently defending security of its staff and the Company's interests.
