

ANNOUNCEMENT

The Hellenic Electricity Distribution Network Operator (HEDNO) informs that, today 17/8/2013, due to the improvement of the generation capacity of PPC S.A. Generation Plant, based on current conditions and provided that there won't be any unexpected event, power interruption is not required in the islands of Thira and Thirasia.

However, it is clarified that HEDNO service teams might have to proceed to unscheduled power interruptions in small parts of the lines for a short duration, if it is considered necessary for the safety of the Network.

We kindly ask for the limitation of the power consumption so as to realize with the best possible way the distribution of the available capacity.

All HEDNO personnel is making every effort for the best provision of services to the consumers.

Athens, 17th of August 2013
