

Press Release

## Constant vigilance for the restoration of damages to the network due to the snowstorm "ELPIS"

HEDNO, in the context of providing comprehensive and continuous information to the public, would like to announce that all its human resources are mobilized for the fastest possible restoration of the damages caused to the Network by the snowstorm "Elpis".

At this time, HEDNO's crews are working rapidly under particularly difficult conditions to restore the damages caused by the bad weather to the Network in Attica, in parts of the areas of Rafina, N. Voutza, Mati and Nea Makri, as well as in parts of Kifissia, N. Herakleion and Psychiko and Grammatiko, Dionyso, Marathona, Kato Souli, N. Philadelphia, Vrilissia and Chalandri.

In Evia, where the weather is particularly bad and HEDNO's crews face serious access problems to restore the faults, crews are still trying to restore the damages caused to the Network in settlements in the area of Psachna and in Karystos.

A little earlier, HEDNO's technical staff started works for the restoration of a fault in a line supplying electricity to the outskirts of the town of Kos.

Finally, please note that citizens that cannot reach the free telephone line 800 400 4000, they can contact HEDNO's Telephone Service Centre at 11500 and 211 1900 500.
