

Announcement

HEDNO alerts consumers against scams

HEDNO alerts consumers against scammers impersonating employees/representatives of our Company to steal personal data and bank account details (IBAN etc.) on the occasion of the state aids and rebates on electricity bills or other transactions relating to electricity supply.

Please note that HEDNO, on the basis of its nature and business, is not in any way involved with electricity invoicing and/or power pass (financial relief for electricity bills) issues.

We therefore stress that HEDNO's employees or representatives do not contact electricity consumers for issues pertaining to electricity supply transactions. Please also note that HEDNO's employees or representatives do not ask and will never ask consumers for their bank account details (e-banking, IBAM etc.) over the phone or via apps such as messenger, viber etc.
