

HEDNO

Announcement

Update on the progress of the restoration of the electricity supply in the areas affected by the snowfall.

HEDNO, in the context of providing continuous updates to the public regarding the snowstorm “Barbara”, would like to inform that its staff is mobilized and is working hard to ensure uninterrupted power supply across the whole country.

Today, Monday, February 6th, the works for the restoration of damages in the power supply network continue, in particular in Attica in 3 lines in Nea Makri, Aspropyrgos and Oinofyta, which affect parts of the areas.

In Central Evia, six settlements in the Municipality of Dirfys-Messapia remain out of service; the network is expected to be restored very soon.

The same applies for the Troupi village in Northern Evia.

Any consumers who still face electricity supply problems are kindly requested to contact HEDNO immediately by phone at 8004004000 or report it immediately via the MyDEDDiE application from their mobile phone (Android and iOS) or via a computer at the HEDNO website Online Fault Report (deddie.gr).
