

**ANNOUNCEMENT**

HEDNO would like to inform consumers of the Prefecture of Halkidiki that after the ceaseless efforts of its crews and the successful restoration of power supply for 155,000 accounts, there are currently very few electricity restorations pending, mainly in the areas around Kallikrateia and Sozopoli, for cases that require further assessment of the damages due to safety-related reasons.

Please note that all HEDNO technical crews and partner contractors remain in the afflicted areas in order to complete restoration works in full and ensure power supply for all consumers.
