

## COMMUNICATION

Following the accident in the area between Poros and Galatas, HEDNO would like to inform consumers that HEDNO's crews rushed immediately to the scene, in order to inspect and assess the damage caused by the helicopter collision on the overhead line supplying power to Poros island from Galatas.

The crews are continuing to work hard in order to repair the damages as quickly as possible.

At the same time, all necessary measures have been taken to promptly transfer Power Generators to restore electricity on the island, in case that the restoration of the damage is proven time-consuming.
