

COMMUNICATION

HEDNO would like to extend their deepest condolences to the families of the victims of the accident that took place today in the area between Poros and Galatas.

Providing continuous information to the public regarding the power supply failure on the island of Poros, HEDNO would like to announce that the damages to the overhead line supplying power to Poros island from Galatas are extensive; they are expected to be fully repaired by the morning of 21 August, as HEDNO's crews will continue to work hard throughout the night.

At the same time, the Power Generators that are being transported to the island are expected to become operational in the early morning in order to cover a significant part of the island's electricity needs. In the meantime, with the help of the Army, efforts are currently being made to provide electricity to critical infrastructures of Poros, using low-voltage generators.
