

## COMMUNICATION

HEDNO would like to announce that, following the hard work of HEDNO's crews to fully restore the extensive damages caused on the overhead line by the tragic accident, the power supply on the entire island of Poros has just been restored.

The Power Generators transported to the island covered throughout the day more than 70% of the island's electricity needs, while the coordinated and effective work of HEDNO's crews had as a result the restoration of damages in all three Medium Voltage distribution conductors of the overhead line supplying the island with power.

HEDNO would like once again to extend its deepest condolences to the families of the victims of the accident.
