**HEDNO: Four-fold certification for Installations and Occupational Safety and Information Management Security**

HEDNO received a four-fold certification in the field of Installation Safety, Occupational Safety and Information Management Security, continuing its efforts for the adoption of modern practices aiming at the upgrading of its internal operation.

More analytically, having as a basis the on-going effort to minimize occupational hazards, the Occupational Health & Safety and Facilities Management Department received its ISO 9001:2015 certification for its Quality Management system in the Installation Safety field. Furthermore, the Health Branch of the above Department received two certifications: ISO 45001:2018 for the occupational health and safety management system and ISO 14001:2015 for the environmental management system.

Aiming at ensuring the highest possible level of information security and data protection, the Information Technology & Telecommunications Department received the ISO/IEC 27001:2013 certification.

The new HEDNO certifications underline the Company's commitment to ensure and improve reliable quality levels by adopting internationally recognized standards.
