

ANNOUNCEMENT

HEDNO announces that since early morning hours, problems have been caused at the power supply Network in areas that are affected by extreme weather conditions at the most.

More specifically, power supply problems are currently ongoing in Voiotia and particularly at villages in the wider area of Thiva, Kaparelli, Leuktra and Melissochori and the villages of Domvraina, Ellopia and Leontari.

In Attica, isolated problems are reported in Medium Voltage lines in the area of Pallini, Penteli and Aspropirgos.

Regarding power supply problems in Andros and Tinos, restoration works are still continuing and there will be further updating.
