

ANNOUNCEMENT

HEDNO would like to announce that two failures in Medium Voltage lines that took place shortly after 21:30 and affected electricity supply in parts of the areas of Nea Ionia, Perissos, Pefki and Amarousion have been restored.

The failures occurred due to materials failure in underground Medium Voltage cables and the damage that caused electricity problems in the area of Nea Ionia, Perissos and Pefki was restored at 22:30 with the only pending matter being the supply to a customer with a G/S, while the damage in Amarousion was restored just a few minutes ago.

HEDNO would like to apologize for any inconvenience caused to consumers, particularly during this time of crisis, and would like to stress that all of its crews remain alert for the quickest possible restoration of any problems that may occur in the electricity supply Network.
