

## ANNOUNCEMENT

The crews of HEDNO have been called since the early morning hours in order to restore, as fast as possible, the extended damages caused to the Network in central Evia due to bad weather conditions.

More specifically, 8 crews have been assigned with a total number of 30 technical staff persons for the restoration of the damages caused in the Network due to heavy rain.

At this time, the crews continue the restoration works in the Network in order to reconnect supply, as fast as possible, for the villages of Theologos, Gerontas, Pournos, Skounteri, Mistros, Mavropoulo, Pissonas and Vatontas as well as part on the areas of Vasiliko, Amarinthos, Eretria, Politika, Nerotrivia and Nea Artaki.

Please note that several planned power supply cuts were carried out for preventive purposes and as per the instructions of the Fire Brigade.

HEDNO would like to express its condolences for the families of the victims.
