

PRESS RELEASE

New RES office for Western Macedonia at the area of Kozani

HEDNO would like to announce that from tomorrow, Tuesday, 1 September 2020, the new Western Macedonia RES office is opening at the area of Kozani.

The new office is located at the seat of HEDNO for the area of Kozani and its opening is expected to contribute towards a quicker and more efficient procedure for the connection RES projects with the electricity Network.

At the same time, its opening is part of the wider strategy of the Ministry of Environment and Energy for the promotion of the installation of RES stations at lignite areas (Western Macedonia and Municipality of Megalopoli).

After all, for these areas there is a special priority list for applications, which will be reviewed along with and in relation to other applications of the same administrative region of HEDNO.
