

## ANNOUNCEMENT

HEDNO would like to inform all consumers that the progress of the works for the restoration of damages at the Electricity Distribution Network at areas afflicted by cyclone Ianos, as of today, Monday, 21 September, is as follows:

In Kefalonia, the southern part of the Palliki peninsula and part of Erisos up to Konidorata have been reconnected to electricity supply while works continue in the area for the reconnection of Fiskardo.

In Zakynthos, restoration works for isolated damages are continuing at the Electricity Distribution Network, at several points scattered across the whole island.

In Ithaki, works are still progressing at this moment at the northern part of the island where the most serious issues have been detected due to the large number of trees that have fallen on the Network.

In Karditsa, the difficult task of water pumping is still ongoing while the reconnection of 17 substations at the center of the city is still pending, with HEDNO crews having managed to reconnect 97 substations.
