

PRESS RELEASE

Bureau Veritas Certificate for HEDNO's Network Major Installations Department

HEDNO's Network Major Installations Department received by the Bureau Veritas international body the ISO 45001:2018 certificate for the management of work health and safety along with the re-certification of ISO 9001:2015 standard for the quality management system and ISO 14001:2015 for the environmental management system.

The certificate pertains to the Transformers Repair Crew of Athens under the Network Major Installations Department under the General Department of Network Development and Management, which carries out maintenance and repair works for voltage transformers.

All of the above-mentioned certificates confirm HEDNO's commitment for the continuous improvement of its operation and effectiveness, with the support of the Environmental and Health and Safety Management Systems, as well as its compliance with the applicable legislation for the Environment and Health and Safety.

Additionally, these three certificates epitomize HEDNO's strategic choice of providing quality services, with respect for the environment and the establishment of appropriate facilities for the health and safety of its employees.
