

PRESS RELEASE

Restoration of electricity supply

HEDNO would like to inform the public, that following the fire incident that took place earlier in the evening of Sunday at IPTO's Ultra-high Voltage Center in Koumoundourou and caused problems in Attica and Peloponnese, all crews have made extensive and hard-working efforts resulting in the restoration of electricity supply for the largest part of the afflicted areas.

In Attica, electricity has been restored at the center of Athens and the areas of Aigaleo, Koridallou, Piraeus, Falirou and Nea Smirni, and in Western Attica, at the areas of Aspropirgos, Elefsina, Mandra and Megara. In Peloponnese, the areas of Korinthos, Nafplio, Tripoli, Sparta and Kalamata, as well as Aigina, Poros and Agistri, have also been restored.

The crews of HEDNO will continue hard work to restore electricity at individual Medium Voltage departures at the afflicted areas.
