

## ANNOUNCEMENT

HEDNO, following the problems that have been caused at the Network due the Medea weather system, would like to announce that electricity problems this afternoon of 16 February are reported for the following areas:

In Attica, in the areas of Ilíooupoli, Halandri, Agioi Apostoloi Kalamou, Agios Stefanos, Petroupoli, Glifada, Peristeri, Ilion, Vrilissia, Kato Kifisia, Marousi, Dahtilidi Amourousiou, Loutsa, Palaio Psichiko, Neo Psichiko, Grammatiko, Agia Paraskevi, Polidroso, Dionysos, Kapandriti, Kiourka, Kalogreza, Menidi, Neo Itakleio, Skaramagas, Slamina, Avlonas, Nea Ionia and Metapmorfosi. The majority of the damages concern problems caused at the Network due to the fall of trees from the weight of the snow.

In Evia, the technical staff of HEDNO along with enhanced support by partner contractors from nearby areas, continues works having restored for supply for the largest, based on their population, villages such as Kehries, Rovies, Mantoudi and Prokopi, while ongoing works are still taking place for the reconnection of electricity supply until this evening for the villages from the central to the Northern parts, namely in Chalkidiki towards Agios Ioannis Rosos and the mountain villages of Istiaia since there are severe damages at the Network and a great number of broken poles.

HEDNO would like to thank the public for their understanding and stress that our technical staff are making hard efforts under extremely difficult circumstances in order to restore all problems as quickly as possible. The extreme weather conditions are still causing several damages on the Network mainly due to the fall of trees.
