

ANNOUNCEMENT

HEDNO provides constant updates on the problems that have been caused at the Network due the Medea weather system and would like to announce that the crews continue to work hard until this afternoon of 17 February in order to complete the reconnection of electricity for 22 Medium Voltage lines.

These lines provide electricity for approximately 44,000 houses in parts of the areas of Dionysos, Agios Stefanos, Marousi, Nea Ionia, Neo Psychiko, Palio Psychiko, Filothei, Papagou, Petroupoli, Kefalari, Politeia, Pefki, Vrilissia, Gliko Nera, Kato Kifisia, Ekali and Nea Erithraia.

Please note that this morning, the total number of houses with electricity problems was 70,000 which means that at present, 30,000 houses have been reconnected.

HEDNO would like to ask the public for their understanding while updates will be continuing as the works are progressing.
